This Special Issue invites scientific contributions that showcase and discuss novel developments in the design and operation of building facades that contribute to overcoming current health and well-being challenges in urban environments. These developments may refer to new technological applications, performance-based façade designs, innovative design tools, and methods, or state-of-the-art control systems for building enclosures that enable façades to be effectively in sync with outdoor health and well-being requirements. In particular, contributions that adopt a holistic approach to inhabitants' health and well-being and, therefore, consider the façade influence beyond single-domain environmental comfort are particularly welcomed.

Deadline for manuscript submissions:

**31 March 2023**

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and other databases.

**Journal Rank:** [JCR - Q2 \(Environmental Sciences\)](#) / [CiteScore - Q1 \(Geography, Planning and Development\)](#)
