Message from the Guest Editors

Dear Colleagues,

This Special Issue focuses on the InsurTech, PropTech, and FinTech environments. It is well known that “FinTech” comes from the union of two words, “Finance” and “Technology”, “InsurTech” is the union of the words “Insurance” and “Technology”, and PropTech it is a use of technology in the real estate industry to make transactions more efficient. This sector is probably one of the most relevant new markets in recent years, with a great potential to generate collaborations with financial institutions, the insurance world, and jointly grow towards a more innovative business model.

Papers submitted to this Special Issue should cover some of those topics from a wide range of views and fields such as financial, technological, digital, management, international business, and quantitative analysis, including sustainable business. Those contributions are not limited to academics, but also practitioners are very welcome.
