### Message from the Guest Editors

Dear Colleagues,

Increasing global climate, resource and biodiversity challenges coupled with growing social issues raise the need to accelerate sustainability transitions. Sustainability transitions rely on complex, cumulative and open innovation processes typically stretching over long periods of time. Accordingly, a shift to sustainable manufacturing and consumption is only possible as a concerted effort. The role of IP in effective sustainability transitions however remains insufficiently understood. Its role needs critical examination on different levels in the light of emerging sustainable, circular and sharing business models. Moreover, comparing legal IP frameworks between more developed and emerging economies can provide valuable learnings on how IP can be used to support sustainability transitions. Given the lack of knowledge and research that brings together both the role of IP and new sustainable business models in sustainability transitions, we invite contributions from the management, sustainability, law and interdisciplinary sciences, with a strong emphasis on innovation.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed by the [Science Citation Index Expanded](#) and [Social Sciences Citation Index](#) (Web of Science), as well as [Scopus](#) and [other databases](#).

**Rapid Publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2019).
