Message from the Guest Editor

Transportation contributes to economic efficiency and social progress, but is also responsible for negative environmental impacts. Therefore, it is under pressure to reduce its environmental footprint and fossil fuel energy consumption. To face the challenge of sustainability and demand increase, intermodal transport has attracted wide interest in the scientific and political community. Intermodal transport pertains to both passenger and freight systems.

The topics of interest include, but are not restricted to:

- Sustainability of transport systems and policies;
- Integration of new technology or vehicle;
- Network design and planning;
- Service network design;
- Vehicle routing, scheduling, and dispatching;
- Innovative multimodal mobility services (public transport, vehicle sharing, etc.);
- Multimodal real time traveler information;
- Innovative transport systems for urban areas and urban freight transport;
- Integrated planning of people and freight transportation systems.
Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the second half of 2018).
