Chengdu 611756, China

Deadline for manuscript  
submissions:

**closed (31 August 2023)**

### Message from the Guest Editors

With the rapid development of isotope and tracer techniques, great achievements have been made in hydrology and hydrogeology in the past few decades. This progress has greatly supported communities in understanding the behaviors and evolutions of the hydrosphere on Earth under dramatically anthropogenic and natural disturbances and contributes to the rational management and sustainable exploitation of water resources around the world. Studies on the application of isotope techniques in hydrology and hydrogeology are essential for tackling challenging water issues in the future.

This Special Issue aims to publish high-quality studies on the application of isotope techniques in hydrology and hydrogeology. Isotope tools, coupled with other approaches such as laboratory and field experiments, and numerical modeling to understand physical and chemical processes of the hydrosphere, are highly welcome in this Special Issue, as are original research articles and reviews.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
