Message from the Guest Editors

The continued growth of the world's population and the increasing prosperity of people over the next three decades will require an increase in food production. At the same time, these huge quantities of food must be produced in a way that protects the environment and will not have a negative impact on climate change. To achieve this, it will be necessary to change the way food is produced. Future technologies, system innovations, and unconventional raw materials are key to the expected transformation of the food system. These innovations range from sustainable food production to postproduction waste management.

The purpose of this Special Issue of *Sustainability* is to present original scientific articles as well as review articles on new technologies in the food system, unconventional food products, and waste management practices as well as consumer acceptance studies for the proposed solutions for food system transformation.

Deadline for manuscript
submissions:

31 March 2022

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
