Message from the Guest Editor

This Special Issue will offer scholars, logistics providers, and logisticians a new business model and a deeper understanding of certain facets of a successful business future. First, it will provide insider knowledge and understanding of the competitive mechanism changes in dealing with a dynamic and uncertain environment. Second, it will contribute to the knowledge concerning resources and capabilities in the new norm logistics business and operations empowering successful logistics services and sustained competitiveness. It will also contribute to predicting future logistics services and operations that help providers and logisticians to react with uncertainty. Further, this Special Issue may also offer new or extend the previous literature, research and theory of logistics, service operations, innovation, and strategic management by offering theoretical and empirical evidence articles.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
