Message from the Guest Editors

Dear Colleagues,

Sustainable development plays a significant role in the social, human, economic, and environmental sustainability of communities and cities around the world. Land, as the basic guarantee of human survival, is facing the double dilemma of "resources shortage" and "extensive utilization", especially in the influence of the global spread of COVID-19. Therefore, determining how to promote the high-quality urban renewal by improving land use sustainability and environmental impacts is the key issue that needs to be focused on in the future. This Special Issue aims to explore cases and experiences in promoting land use sustainability through academic discussion. We also welcome works from interdisciplinary fields, which are essential for planning sustainable cities and land use for a new era, such as how land use enhances urban resilience and how land use is integrated with urban renewal. Papers selected for this Special Issue will be subject to a rigorous peer review procedure with the aim of rapid and wide dissemination of research results, developments, and applications.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
