### Message from the Guest Editors

Dear Colleagues,

This special issue welcome contributions in the following broad areas:

- Advancing knowledge of how methods of land and property value capture can be used to fund sustainable urban development and infrastructure;
- How methods of building adaptive re-use, innovative construction techniques, and allied technologies can be used to better utilise the built environment;
- How methods of building retrofit and allied technologies can be used to better utilise the built environment;
- How methods of governance can be better understood/alterd to capture the value of land and property and support sustainable urban development;
- Various issues related to green buildings, valuations, funding mechanisms, etc. that promote sustainable practices in property and build environment;
- Any other contributions that are relevant to the call for papers.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
