

Life Cycle Cost - A Tool for Development of Sustainable Products and Technologies

Guest Editors:

**Assoc. Prof. Dr. Jaroslaw
Selech**

**Assoc. Prof. Dr. Karol
Andrzejczak**

**Assoc. Prof. Dr. Stanisław
Młynarski**

**Dr. Katarzyna Joachimiak-
Lechman**

Deadline for manuscript
submissions:
closed (26 March 2023)

Message from the Guest Editors

We invite submissions from the areas of engineering, natural sciences, public policy, law, social science, business and economics. Relevant topics to this Special Issue include, but are not limited to the following subjects:

- Life-Cycle Costing (LCC) as an assessment tool used in industrial technology;
- LCC analysis as an engineering economic analysis quantifying the differential costs of alternative investment options;
- Stochastic processes in the life cycle cost prediction;
- Remaining useful lifetime and maintenance costs of the operated technical facility;
- Environmental and economic life cycle efficiency;
- Sustainable production and consumption;
- Prediction and optimisation of durability, reliability and operating costs;
- RAMS analysis for transport systems;
- Analysis of the warranty period in terms of safety, reliability and cost of use.

an Open Access Journal by MDPI

Prof. Dr. Marc A. Rosen

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
