Deadline for manuscript submissions:
30 April 2019

Message from the Guest Editors

Dear Colleagues,

The aim of this Special Issue is to explore how local governments across different geographies plan and implement interventions as a response to pressing sustainability challenges. This may include case studies with examples from individual cities or comparative analyses across cities on a specific sustainability issue. Papers should include a critical analysis of the outcomes of these responses from local governments. Conceptual works on the role of local government across broader sustainability issues may also be considered.

Papers that do not contain a strong element on local government responses to sustainability issues or challenges will not be considered.

Dr. Christopher N.H. Doll

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the second half of 2018).
