Message from the Guest Editors

Dear Colleagues,

Agroecology has gradually developed in the last two decades, but has only recently been more strongly promoted by different movements, organization, institutions, different farmer groups, and also research. Whereas the development of agroecology was very strong from the beginning in Latin America, not enough is known, thus far, for the case of Europe. There are different evolutions in agroecology as a science, movement and practice, but no substantial documentation exists for this for different regions and countries in Europe.

We invite to contribute to this Special Issue that provide new insights, developments, applications, and policies related to agroecology in different countries and regions in Europe to get an enlarged and improved view about the development of sustainable agriculture and agroecology in Europe. This includes also the food systems approach in agroecology, as well as historical evolutions in different countries.

Prof. Dr. Alexander Wezel

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the second half of 2018).
