Deadline for manuscript submissions:

**1 October 2021**

### Message from the Guest Editors

Dear Colleagues,

Marine ecosystems provide a multitude of ecological benefits and economic services to human. Nonetheless, these systems are increasingly being exposed to a broad spectrum of natural and anthropogenic influences. Over the past and recent decades, human-induced threats including global warming, hypoxia, ocean acidification, eutrophication, marine habitat loss, biodiversity decline, and resource overexploitation have posed serious risks on the sustainability and capability of vulnerable marine ecosystems to maintain their integrity and functioning. Thus, underpin the need to further improve our understanding of how natural variability and anthropogenic threats will impact the various biogeochemical processes in the ocean which, by doing so, we can assist the ongoing and future efforts toward developing and improving scientific-informed and data-driven approaches of controlling/mitigating the marine ecological effects of multiple environmental and climate stressors.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

**Journal Rank:** [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
