Message from the Guest Editors

Dear Colleagues,

We are proposing a Special Issue on the challenges and opportunities related to mobility for sustainable societies. Sustainable mobility is a term that can be used to summarise “what is at stake in contemporary attempts to redress the balance of costs and benefits in the transport sector”. A sustainable approach requires a shift away from a focus on traditional transport planning towards “a policy approach that is informed by evidence and risk assessment and which recognises the pitfalls of unconstrained growth” (Giorgi 2003) and also one that is fair to all groups using or related to transport. As a vision, sustainable mobility has been quite influential in effecting recent changes among policy-makers and key stakeholders. However, it is particularly critical in the current context where we have found ourselves in the face of a global pandemic...
