Deadline for manuscript submissions: closed (26 May 2023)

Message from the Guest Editors

Frontiers of Intelligent New Energy Vehicles is a special issue of **Sustainability** and provides a forum for the latest scientific and technological advances in vehicular electrification and intelligentization for promoting the formulation of next-generation smarter and cleaner transportation systems, especially at present energy saving and carbon reduction are gaining more attention than ever. This special issue focuses on onboard energy storage technologies/devices, advanced propulsion systems for new energy vehicles (NEVs), analysis and optimization of energy conversion processes in new energy vehicles, and connected/automated vehicle technologies.

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas sustainability related to and sustainable development. Sustainability publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
