Message from the Guest Editors

With specific reference to maritime administration and management, the International Maritime Organization noted with concern that the health of oceans and marine biodiversity are negatively affected by marine pollution from a number of land-based sources, including vessels and ports. To sustain the development of maritime transportation, “sustainable and green maritime,” which operates with a good balance between environmental impact and economic interests, has been the focus of marine industries and government agencies, and requires that they look into energy saving and reducing the impact of their operations on society and the environment.

This Special Issue to be published in Sustainability aims to bring together recent theoretical, applied, and methodological advances concerning operations and management in sustainable and green maritime transportation, regardless of whether they are related to hardware, software, or innovative approaches, and encourage the researchers in maritime studies to engage in deep thought to make maritime transportation sustainable and green.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
