### Message from the Guest Editors

Scientific contributions will be accepted in relation to exploratory organic farming initiatives in some priority socio-technical areas, such as:

- organic agriculture and circular economy: risks and opportunities in opening the recycling pandora box;
- organic territory: organic districts, interfarming, organic farmers' stakes representation, re-localisation of organic consumption, branding locality in organic, farm introgression of ecosystem services;
- agroecological organic practices: mixed farming strategies; intercropping/mixed/alley cropping techniques and approaches; use of genetic heterogeneous materials (i.e. evolutionary populations, cross composite populations, etc.); crop diversification systems;
- training and advisory in agroecology: achieving competences in managing complexity and socio-ecological systems;
- outside-the-box policy and administrative initiatives: framing environmental and territorial agreements/contracts leveraging organic farming; GPP or school meals innovative protocols.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
