Deadline for manuscript  
submissions:  
**closed (31 March 2022)**

### Message from the Guest Editor

Dear Colleagues,

Due to urbanization and industrialization, various emerging pollutants have come to the attention of researchers around the world. These pollutants have detrimental effects on the growth, physiological, and biochemical parameters of plants. Various studies have reported the use of organic and inorganic amendments to protect plants under the abovementioned abiotic stresses. However, these testimonials are mostly under controlled conditions. In addition, the elucidation of mechanistic coping approaches is lacking in recent literature. Therefore, the present Special Issue will focus on the integrated novel approaches (biological, physical, and chemical) used for plant conservation under emerging pollutants. Moreover, it will also include studies involving mechanistic elucidation of approaches used to cope with these stresses and under natural conditions. Reports on sustainable integrated approaches involving the abatement of co-contamination are also of interest for this Special Issue.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
