

Recycling and Sustainability of Plastics

Guest Editors:

Prof. Dr. Kim Ragaert

Prof. Dr. Steven De Meester

Prof. Dr. Kevin M. Van Geem

Prof. Dr. Els Du Bois

Prof. Dr. Pieter Billen

Prof. Dr. Karl Vrancken

Message from the Guest Editors

The sustainability of plastics as a material is more than ever a relevant topic for scientists to work upon. Plastics are often misunderstood as an ‘unsustainable’ material because of the very real littering issue in which they feature.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
