Message from the Guest Editors

This call for papers seeks foundation-building research on sustainability in the platform ecosystems era. We welcome original contributions related to both theoretical and practical aspects as per the following themes:

- Economics (i.e., the overall impact of platforms on competition, tax regulation, and business configurations, etc.), social (i.e., privacy and data protection, social inequality, labor standards compared to the old industries, and new labor models, etc.), and environmental (environmental costs of computation, the lack of a global strategy on climate change, and the environmental footprint of platforms, etc.) sustainability of platform ecosystems;
- New sustainable strategies and business models in the platform ecosystems era;
- Organizational and managerial challenges for platform ecosystems sustainability;
- Sustainable innovation in platform ecosystems;
- Platforms and climate change;
- Viability and sustainability of platform ecosystems;
- Systems approaches to sustainability in the platform era;
- Platform ecosystems configuration for sustainability.

Interdisciplinary works as well as industry-academia joint research efforts are welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
