Message from the Guest Editors

Dear Colleagues,

We welcome papers aimed at analyzing and exploring how digital technologies are shaping the paradigms of production and business models, taking into account the needs of consumers as well of the social and environmental ecosystems. Contribution can focus either on technological, social, or economic issues while always considering them from the different perspectives of Sustainability Development Goals.

Topics can include (but are not limited to):

- smart cities and smart territories
- immersive technologies for design and production
- artificial intelligence for smart design
- technology ventures and innovative production and business models
- artificial intelligence and co-creation
- ...
