Message from the Guest Editors

We welcome contributions in the form of systematic literature reviews, case studies, research articles, and research notes. Their focus should be on tourism products or product types; product development processes for sustainable tourism; related governance, planning, and/ or (strategic) management; relevant stakeholder interactions; legal settings; types of tourism products; and destination settings. Additional possible topics outside of but related to tourism include but are not limited to sports, nature-oriented activities, health-promoting and rehabilitating offers, and regionality.

Papers selected for this Special Issue are subject to a rigorous peer review procedure with the aim of rapid and wide dissemination of research results and applications.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
