Message from the Guest Editors

The applications of and research in project management and sustainable operations have grown rapidly at an exponential rate over the past decades. This Special Issue will focus on the latest advances in novel technologies applying for project development and sustainable engineering disciplines, which are too complex to be solved following a conventional approach and require the application of new techniques, analytical tools, and simulation of support for practitioners to elucidate real-world problems, thus improving the quality of an urban living environment. It will provide a platform for academicians, researchers, and engineers to share their experience and smart solutions to problems in various areas of civil engineering and project management for efficient use of available assets, limited resources, and existing infrastructure in the developing or developed cities.

Deadline for manuscript
submissions:

30 November 2021

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
