Message from the Guest Editors

This special issue aims to shed light on historic, current and potential future architectures of participation in sustainability-oriented research trying to find answers to questions, such as:

- What areas of sustainability do current participation approaches focus on and what specific inclusiveness challenges do they raise?
- What is the role of participation during and after moments of crisis?
- What differences do we see, for example, between interest groups, urban and rural areas, educational background in terms of participation, exclusion and potential remedies?
- What differences do we see between participation formats, e.g. digital and offline approaches?
- What differences do we see between scientific disciplines and other macro, meso and micro structures underpinning participation practises?
- What are the causes of actual and potential exclusions?
- What is the role of representativeness? To what extent can or should current engagement approaches meet such requirements?

an Open Access Journal by MDPI

Editor-in-Chief

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
