Message from the Guest Editors

Quality management is an integrated and holistic approach that overlooks all activities of the organization in order to maintain a desired level of excellence for establishing and sustaining competitive advantage. Quality management may be used as a bridge to environmental, social, and economic sustainability in organizations.

The main aim of this Special Issues is to examine the linkages between quality management and sustainability in business organizations.

The Special Issue also examines the linkages and integration of different quality standards. Furthermore, we are interested in examining the incorporation and the effects of the sustainability concept in the major quality awards.

Finally, this Special Issue seeks to collect contributions that examine the adoption of quality management tools in improving organizational sustainability.

We invite original contributions on theory, methods, and applications, as well as case studies coming from cross-discipline areas of quality management, as well as

Special Issue

environmental, social, and economic sustainability that shed light on the abovementioned issues.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPus / SciFinder](#), and many [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
