### Message from the Guest Editors

Nowadays, because of the environmental problems that our world faces, there is a need to change the energy production/consumption paradigm and to accelerate the worldwide energy transition process. Although it is true that it is becoming imperative to replace fossil fuels with renewable energy sources, we should not neglect the impact that this transition can have on countries' macroeconomic stability, namely on their economic output. Bearing this in mind, this Special Issue from *Sustainability* will be primarily focused on the identification and analysis of the effects that the consumption of renewable energy has on economic growth. For this Special Issue we seek papers that are able to address the renewable energy consumption and economic growth relationship, and that can shed some light on the strategies that should be followed in order to ensure sustainable development.

Deadline for manuscript  
submissions:

**30 November 2021**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

**Journal Rank:** [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
