### Message from the Guest Editors

Rivers are complex and fragile environments under continuous change and movement induced by man and nature, started centuries ago. Currently, the biggest threats posed to river ecosystems are originating from accelerating natural processes that arose partly due to human impacts. Because of this accelerated pace, river ecosystems have not had enough time to adapt to the changes and sustain themselves, which is now more true than ever. Hydromorphological processes, pollution, hydraulic structures, water regime changes caused by climate change, and changes in riparian and aquatic biodiversity are some of the issues that are exceptionally important for river ecosystems. In order to get to a sustainable solution for the future, we have to address problems in a multi-dimensional and multidisciplinary way, which requires the involvement of different scientific disciplines.

Deadline for manuscript  
submissions:

**1 December 2021**

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Marc A. Rosen**

Faculty of Engineering and  
Applied Science, University of  
Ontario Institute of Technology,  
Oshawa, ON L1G 0C5, Canada

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

**Journal Rank:** [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
