Message from the Guest Editor

This Special Issue aims to broaden the discussion on the interrelationships between sustainable supply chain management and smart cities and invites articles on the following areas:

- The reciprocal relationships between SSCM and smart cities;
- Sustainable SCM opportunities in smart cities;
- Overlapping strategies applicable in SSCM opportunities in smart cities;
- Literature review on the linkages between SSCM and any components of smart cities;
- Any other topics that link smart city to the domain of sustainable supply chain management.

All research methods are accepted as long as it is able to address the aforementioned research areas
