Message from the Guest Editors

Dear Colleagues,

This Special Issue on “Sustainable Urban Agriculture” will group together contributions describing state-of-the-art experiences and researches associated with urban agriculture (UA) sustainability. Submitted papers should address one or more of the following questions:

- (1) Which cropping systems are best suited to urban conditions?
- (2) How healthy agricultural goods can be produced in urban environments?
- (3) Which technologies can be adapted or developed to boost UA performances?
- (4) How can UA reduce city environmental footprint?

Papers selected for this Special Issue will undergo a rigorous peer review procedure with the aim of rapidly and widely disseminating innovative research results and successful experiences.
