Message from the Guest Editors

In the wider building industry, the concept of sustainability is related to adding value to the subject being investigated. Even in the field of restoration, sustainability is often identified as strictly related to the “green” sector or to ecology, but this causes a limitation of its intrinsic value and of the width of its meaning (ethical, environmental, social and economic).

The aim of this Special Issue is to define and share the meaning of sustainability, proposing a practical in-depth analysis, in which technology, even when inspired to tradition, can contribute to the conservation of the built environment in compliance with the concept of sustainability...

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
