State of the Art and Future Perspectives in Smart and Sustainable Urban Development

Guest Editor:

Prof. Dr. Tan Yigitcanlar

School of Architecture and Built Environment, Queensland University of Technology, Brisbane, Australia

Deadline for manuscript submissions: closed (31 October 2021)

Dear Colleagues,

The scope of the Special Issue—that compiles the cuttingedge work of researchers that investigate the state of the art and future perspectives in smart and sustainable urban development—includes the following broad areas, although other relevant topics will also be considered:

- Theoretical and conceptual underpinnings and analytical and policy frameworks of smart and sustainable urban development;
- Methodological and technical approaches for the evaluation and forecasting of smart and sustainable urban development;
- Technological progress, developments, and trials concerning the quadruple bottom-line development of smart and sustainable cities;
- Global best and good practice smart and sustainable urban development case investigations, demonstrations, and reports;
- Smart and sustainable urban development planning, design, applications, and governance models to deliver desired urban outcomes;
- Premises, pitfalls, implications, and impacts concerning the future of urbanization and smart and sustainable urban development.

Prof. Dr. Tan Yigitcanlar *Guest Editor*

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. Sustainability publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
