Urban Sprawl and Sustainability

Message from the Guest Editors

Several targets will be addressed in the present special issue, such as to extend the concept of urban growth model towards awareness of sustainable development systems, to suggest new urban scenarios, to reflect on advanced thoughts as the resilience role of urban and metropolitan regions, to explore strengths and limitations of sustainability in each urban system and to assess if the interplay among urban sprawl and sustainability can conciliated, also through new technologies and innovative urban models (e.g. smart cities).

Keywords

- urban sprawl
- territorial planning
- sustainable development
- technologies
- land use change

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the second half of 2018).
