Message from the Guest Editor

In recent decades, there has been an increasing interest in the relationships between sustainable practices and sustainability performance. Moreover, organizations have become more and more interested in applying sustainability to their day-to-day actions and in disclosing them to their stakeholders through sustainability reports. Essentially, a sustainability practice (SP) is any practice aiming at achieving or supporting a sustainable value. Hart (1996) describes an SP as a group of practice attributes (what), executed by one or more agents (who) in a specific context (when and where), and driven by a sustainable value (why). The discernment and the ability to learn from the successful experiences of other firms are essential to get a competitive advantage. This Special Issue seeks scholarly papers that integrate sustainability practices with economic and financial performance. Therefore, it welcomes multifaceted contributions offering theoretical insights, deploying empirical data analysis (qualitative or quantitative), discussing case studies, or using other suitable methods to shed light on the problem.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
