

Optimising Air Quality and Health Benefits of Transport Decarbonisation

Guest Editors:

Dr. Huw Davies

Dr. Suzanne Bartington

Dr. James Levine

Dr. Nwabueze Emekwuru

Deadline for manuscript
submissions:

31 August 2024

Message from the Guest Editors

The TRANSITION Clean Air Network (<https://transition-air.org.uk/>) is a programme led by the University of Birmingham in collaboration with 9 universities and over 20 cross-sector partners, which seeks to deliver air quality and health benefits associated with a transition to a low-emission transport economy.

Submissions could relate but are not limited to the following topics and questions:

- Characterising emerging air quality challenges—what are the current and future transport pollution sources and how will these determine health benefits and harms?
- Understanding transport choices and behaviours—how will changes in mobility choices and patterns driven by transport decarbonisation change population exposure to air pollution?
- Supporting industry-led research and innovation—obtaining key primary datasets, developing new technologies, or developing standards and/or test methods to assess compliance therewith;
- Co-creating a framework for policy solutions—which planning processes/policy guidance need to be ada

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
