Message from the Guest Editors

This special issue promotes alternative sustainable construction methods to conventional ones through seeking novel and cutting-edge researches. Topics of interest include but are not limited to:

- Material selection and sustainable design
- Structural sustainability
- Alternative materials, recycled materials, and material resilience
- Rheology, strength, and durability of green concrete
- Structural behavior of green concrete structures
- 3D-printing techniques
- Energy-efficient buildings
- Eco-friendly construction strategies
- Green building practices
- Sustainable repair and strengthening techniques
- Carbon upcycling technologies
- Sustainable structure performance
- Life-cycle cost assessment of green buildings
- Modeling sustainable behavior and case studies

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
