Message from the Guest Editors

The aim of this Special Issue is twofold. Firstly, it seeks to highlight inspiring and/or innovative examples and best practices from higher education and further education, accelerating the paradigm shift toward sustainability. Secondly, this Special Issue seeks to identify leverage points to accelerate change in and through higher education and further education.

The scope of the contributions may deal with the macro level of institutional policies and national or international initiatives, the meso level of higher education institutions and campuses, as well as the micro level of individual knowledge, skills, mindset, and behaviors.

We invite theoretical contributions as well as empirical contributions and applied and action-oriented research dealing with sustainability and higher education/further education.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
