Message from the Guest Editors

Dear Colleagues,

Sustainability launches a Special Issue on environmental sustainability in mining. Dr. Andreas Ciroth and Claudia Di Noi serve as Guest Editors.

The Special Issue focuses on three points:

1. The ways to determine the environmental and sustainability impact of mining, in a fair, sufficiently comprehensive, and efficient way;
2. The ways to make mining more sustainable, with emphasis on environmental impacts, illustrated with practical cases or theory;
3. The ways, and good and not so good practices, to communicate information about environmental and other sustainability impacts, of mining activities, to local communities, and other stakeholders.

Contributions are welcome!

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
