Message from the Guest Editor

Dear Colleagues,

Biochar, as a sustainable material, has been used in many different areas. Biochar can be produced from different feedstock, and carries great potential to achieve sustainability for material, energy, agriculture, and environmental applications. In this Special Issue, we welcome your contribution to any aspect of biochar research and development, including, but not limited to, biochar production, biochar characterization, biochar application in different areas, and system development and analysis.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 15.3 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the first half of 2019).
