submissions:

**31 August 2021**

### Message from the Guest Editor

Dear Colleagues,

Agriculture is the anthropogenic activity with the largest area impact. As the population grows, so does the pressure to convert natural habitats to agroecosystems and to intensify our own agricultural production. The environmental impacts of agriculture are thus increasingly becoming more obvious, and there is increasing emphasis on reducing them and finding environmentally friendly procedures aimed at the sustainability of agricultural production. For the successful development of agriculture aimed towards sustainability while maintaining the required level of production capacity, it is necessary to properly map, describe, and understand its impacts on all components of the environment, and to subsequently propose effective steps and measures to reduce the negative ones.

The main objective of the Special Issue is to publish original works, review papers, focused on categories of the sustainable agriculture, agroecological procedures, and thus contribute to informing about current events in terms of the issues, as well as subsequently promoting sustainable and environmentally friendly practices of agriculture and related sectors.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

**Journal Rank:** [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
