Message from the Collection Editor

Dear Colleagues,

This Special Issue on “Sustainable Built Environment” is a response to the growing demand for a sustainable built environment and the urgent need for publishing current thinking, research, and case studies on the matter.

This Special Issue focuses on papers that identify and analyze better approaches to the sustainable built environment, tools, assessment models (environment, social and economic), solutions and case studies (urban area, infrastructure, buildings, and materials), best practices analyses, and their limitations.

Contributors from academia, designers, software producers, and managers that allow a broad perspective and wide-ranging approaches and discussions on the sustainable built environment are welcomed. Papers submitted to this Special Issue are of interest to all those involved in activities across the sustainable built environment and related sectors.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the second half of 2018).
