Message from the Guest Editor

This Special Issue is dedicated to sustainable communication networks. On one side, communication networks can be designed with sustainability in mind—they can be resource-efficient, interoperable or open. On the other side, communication networks have also the potential to improve sustainability in other areas, such as agriculture, environmental monitoring, health monitoring, etc. In this Special Issue, we would like to span all these areas and show how, broadly, various types of communication networks can be used to support a more sustainable life on Earth.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 15.3 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the first half of 2019).
