Message from the Collection Editors

We are preparing a Special Issue in the research field of sustainable consumption and production.

The Bundtland report, published in 1987, generally defined sustainable development and framed the future of a global society. Furthermore, the Agenda 21 as a deliverable of the United Nation Earth Summit in 1992 paved a way for sustainable consumption and production. Following those, a success at the global level was perceived, in terms of reducing the usage of toxic chemicals, changing consumption patterns and resource usage, as well as innovations from engineering and technology perspectives (Kovačič Lukman et al., 2016). However, challenges in sustainable consumption and production still exist in 2020, especially when considering reaching Sustainable Development Goal No. 12. and the European Union Green Deal, emphasizing research, innovations, and technology improvements in a context of environmental, economic, societal, and policy dimensions.

an Open Access Journal by MDPI

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
