Message from the Guest Editors

Sustainable corporate finance is a fast growing research area that aims to link sustainability considerations, such as environmental, social, and governance (ESG) factors with financial decision making processes. In particular, it explores how corporate finance concepts such as capital budgeting decision criteria, the weighted average cost of capital, the cost of debt, and the cost of equity – to name a few – can and should be adjusted when a firm considers not just the financial cash flows associated with a given project, but the true cost of the project that addresses potential future liabilities, asset stranding, operational disruptions as well as potential environmental and societal damages emanating from a firm's investment decisions.

This Special Issue seeks contributions that offer groundbreaking insights in the area of green finance, responsible investing, responsible corporate governance, institutional monitoring, as well as related political issues, such as mandatory sustainability disclosures, emissions trading schemes, and the role of local and diasporic citizen involvement/activism.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
