### Message from the Guest Editor

Dear Colleagues,

This Special Issue will comprise papers covering a wide range of aspects related to the Economy for the Common Good (ECG) as a framework to operationalize sustainability in the business context.

Sustainability and corporate sustainability are topics that have gained lots of attention in the business sphere. The debate has moved from corporate social responsibility to corporate sustainability. Consequently, there is a growing interest in management frameworks that allow us to integrate and monitor corporate sustainability into the business strategy.
