Message from the Guest Editor

The forest-based bioeconomy is a concept emphasizing the comprehensive role of forest ecosystems and innovative biomass-based products in the emergence of low-carbon economies increasing new employment opportunities and offering wide-spanning public benefits.

Deadline for manuscript submissions:
closed (30 April 2021)
Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 *(Environmental Sciences)* / CiteScore - Q1 *(Geography, Planning and Development)*
