submissions:

**closed (31 March 2020)**

### Message from the Guest Editors

This Special Issue addresses the sustainable provision of high-volume transport in developed and developing countries. It is recognised that transportation is vital for economic and social development. However, to realise these goals, transportation must be safe, affordable, reliable, and accessible to all in society. Transportation also needs to be sustainable without incurring excessive greenhouse gas consequences and environmental impacts. This Issue of *Sustainability* explores these ideals in the developing country context. Contributions are invited that address high-volume transport infrastructure and its sustainable management, low-carbon transport, and inclusivity in high-volume transport provision. Theoretical, empirical, and review studies are welcome from the researchers and practitioners alike.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**—free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed by the [Science Citation Index Expanded](#) and [Social Sciences Citation Index](#) (Web of Science), as well as [Scopus](#) and [other databases](#).

**Rapid Publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 14.7 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2020).
