Message from the Guest Editors

Sustainable approach is gaining momentum at our eyes. We can witness the negative consequences of unbalanced economic-biased development. We need a deeper reflection how to change is unsustainable path of development. Spatial planning should be a part of the remedy since spatial planning is dealing with long term processes of a “longue *durée*” character. This special issue will serve this purpose to start scientific debate on reconceptualization of the role of spatial planning and development in the context of sustainability. How spatial planning can contribute to prosperity, high quality of life and diminished disparities between countries while respecting ecosystem and social integrity? According to the ESPON COMPASS report, 'spatial planning and territorial governance are collections of formal and informal institutions some of which are shared'.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
