Message from the Guest Editors

Dear Colleagues,

Global large-scale urbanization and climate change has created indisputable facts and outstanding challenges that are a common concern of mankind. Interestingly, large-scale urbanization is both a cause of and a solution to climate change. In an address to the United Nations General Assembly in September 2020, President Xi Jinping pledged that China would achieve carbon neutrality by 2060.

Thus, it is essential to explore the roadmap for achieving carbon neutrality from the perspective of sustainable urbanization, to promote the transition of large-scale urbanization for green development, and to play a scientific supporting role for China's new-type urbanization and carbon emission reduction-related policy. This Special Issue welcomes theoretical discussions, innovative methods, applied case studies, review articles, and policy papers that connect carbon neutrality and multi-dimensional sustainable urbanization with the themes of resilience, sustainable development, and sustainability.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
