submissions:

28 February 2025

Message from the Guest Editor

E-commerce refers to the buying and selling of goods or services via the Internet. As e-commerce has continued to grow, many environmental and social concerns have arisen. For instance, e-commerce packaging uses materials that are harmful to the environment and contributes to huge amounts of waste; the logistics (e.g., the last-mile delivery) generates air and noise pollution; online data transmission and storage pose new challenges for privacy protection and security; and the combination of new business models and an unclear legal environment can result in labor rights violations. Besides having to ensure economic performance, e-commerce managers must take into account the natural environment and society and must know how to implement sustainable practices.

The aim of this Special Issue of *Sustainability* is to provide researchers with a platform to discuss sustainability issues in the context of e-commerce and supply chains management in order to help e-commerce managers work in a sustainable manner.

We look forward to receiving your contributions.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
