Social and New Technology Challenges of Sustainable Business

Message from the Guest Editors

The issue of sustainable business is very complicated, because it refers to the economy, natural environment, society and its values, as well as enterprise relations with the external environment, which, in some part, occurs using modern technologies.

Sustainable business should be based on the transparency of relationships and dialogue between stakeholders, among which one can distinguish: Employers, employees, government or social organizations. In this sense, the issue of sustainable business goes far beyond the scope of traditionally understood labor relations, including also the interests of consumers, local communities or the natural environment.

The purpose of the Special Issue is to provide knowledge about available tools and practices of sustainable business in order to effectively respond to social and technological development challenges.

Deadline for manuscript submissions:
30 June 2019

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the second half of 2018).
